

REMARKS

Claims 1, 2 and 12-20 are active in the present application. Support for Claims 12-20 is found in Claims 3-11 and the specification. No new matter is added. An action on the merits and allowance of the claims is solicited.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.

IN THE CLAIMS

Claims 3-11 (Canceled.

12. (New)

13. (New)

14. (New)

15. (New)

16. (New)

17. (New)

18. (New)

We claim:

5 1. A mixture containing

(c) from 5 to 95% by weight of at least one
reaction product of a poly(C₂₋₂₀-carboxylic
acid) having at least one tertiary amino
group with secondary amines and

10

(d) 5-95% by weight of at least one reaction
product of maleic anhydride and a primary
alkylamine.

15

2. A mixture as claimed in claim 1, wherein the
poly(C₂₋₂₀-carboxylic acid) having at least one
tertiary amino group is of the following formula I
or II

20

25

where A is a straight-chain or branched C₂₋₆-
alkylene radical or a radical of the formula III

where B is a C₁₋₁₉-alkylene radical.

30

3. A mixture as claimed in claim 1 or 2, wherein the reaction product (a) is an amide, amidoammonium salt or ammonium salt in which no carboxyl group, one carboxyl group or a plurality of carboxyl groups is or are converted into amido groups.
5
4. A mixture as claimed in any of claims 1 to 3, wherein the secondary amine of the component (a) is of the formula HNR_2 , where R is straight-chain or branched C_{10-30} -alkyl.
10
5. A mixture as claimed in any of claims 1 to 4, wherein the primary alkylamine of the component (b) is a C_{8-30} -alkylamine.
15
6. The use of a mixture as claimed in any of claims 1 to 5 as an additive for mineral oil middle distillates.
- 20 7. The use as claimed in claim 6 as a paraffin dispersant and lubricity additive for mineral oil middle distillates.
8. A mineral oil middle distillate containing a mixture as claimed in any of claims 1 to 7.
25
9. A mineral oil middle distillate as claimed in claim 8, furthermore containing flow improvers, conductivity improvers, corrosion-inhibiting additives, lubricity additives, antioxidants, metal deactivators, antifoams, demulsifiers, detergents, cetane number improvers, dyes, fragrances or mixtures thereof.
30
- 35 10. A concentrate containing 10-60% by weight, based on the total amount of the concentrate, of a mixture as claimed in any of claims 1 to 5, dissolved in the hydrocarbon solvent.
